

MRUNAL RAVINDRA DANDE

Visual Designer

+91 7387382492 | [Email](#) | [LinkedIn](#) | [Github](#) | [Behance](#) | [Show Reel](#)

SUMMARY

Visual Designer crafts impactful visual narratives through thoughtful design and illustration. Experienced in branding and visual storytelling, with a strong foundation in typography and layout. I create cohesive, purpose-driven work that balances creativity with strategic clarity.

EDUCATION

Bachelor of Technology in Computer Science Engineering
Graduated June 2024

MIT World Peace University, Pune, India
8.4/10 GPA

CORE GRAPHICS DESIGN SKILLS

Visual Design:	Typography, Color Theory, Composition, Visual Hierarchy, Layout Design, Visual Storytelling, Branding Fundamentals
Motion Graphics:	2D Animation, Kinetic Typography, Motion Design, Visual Effects, Transitions, Compositing, Keyframe Animation, Storyboarding
Video:	Video Editing, Pacing, Audio Synchronization, Short-form Content, Basic Post-production
AI-Assisted Creative Skills:	Generative AI · AI Image Generation · AI Video Generation · Prompt Engineering · AI-Assisted Creative Ideation

TECHNICAL SKILLS

Design:	Adobe Photoshop, Adobe Illustrator, Figma
Motion Graphics:	Adobe After Effects, Adobe Premiere Pro, Adobe Audition
AI Tools:	Adobe Firefly · Generative AI Tools · AI Image & Video Generation
Additional:	Frontend: HTML5, CSS, JavaScript, Angular Backend: Spring MVC, Spring Security

WORK EXPERIENCE

The Minimalist, Mumbai, India: Frontend Development Intern
Feb 2024 – Aug 2024

The Minimalist is a leading Indian creative agency that combines design, strategy, and innovation to craft impactful brand experiences and provoke action through minimalism.

- Created and supported digital visual experiences for web-based projects while collaborating with design and development teams.
- Contributed UI and visual design for **Firefly** and construction industry websites.
- Translated visual concepts and layouts into responsive digital experiences.
- Worked with typography, spacing, composition, imagery, and interactive elements to maintain visual consistency.
- Developed responsive website components using HTML, CSS, JavaScript, and Bootstrap.
- Technologies used:** HTML, CSS, JS, Figma, Bootstrap

MOTION GRAPHICS DESIGNING EDUCATION

ZEE INSTITUTE OF CREATIVE ARTS (ZICA)

Motion Graphics & UI/UX Design **Feb 2026 – Present**

- Developing professional skills in motion graphics, animation, visual communication, and UI/UX design.
- Creating animated compositions, kinetic typography, visual sequences, and digital design projects.
- Applying principles of timing, spacing, composition, typography, color, transitions, and visual storytelling.
- Developing workflows using Adobe After Effects and other creative software.

PROJECTS

PulseFrame — Motion Graphics Brand Launch Package (Adobe Illustrator, Photoshop)

- Designed a complete vector-based brand package for **PulseFrame**, including a primary logo, alternate icons, lower-third, and social media title card.

- Developed **motion-ready UI elements, typography hierarchy, and reusable assets** in Adobe Illustrator with clean vector paths and organized layers.
- Prepared the visual system for **After Effects animation** using separated animation layers, symbols, scalable assets, and a kinetic-ready design approach.

Data Pulse — Animated Infographic Asset Kit (Adobe Illustrator, Photoshop)

- Designed a reusable infographic system for **social media reels and explainer videos**, including charts, counters, callouts, and statistics cards.
- Created **modular vector assets, minimal icons, and consistent visual elements** with a unified typography and color system.
- Structured the kit for **motion graphics readiness**, enabling smooth animation, scalability, and easy reuse across digital content.

Creative Pro — Character Illustration for Rigging (Adobe Illustrator, Photoshop)

- Designed a **stylized front-view vector character** for an explainer animation with separate head, torso, arms, and legs.
- Created **multiple facial expressions and pose variations** using clean shapes, balanced proportions, and a modern flat illustration style.
- Prepared the character for **After Effects puppet rigging** with organized layers, reusable symbols, and anchor-friendly body-part separation.

OTHER EXPERIENCE AND ACHIEVEMENTS

- SEED Infotech: Java Full Stack Dev + AI/ML
- National Academy Immersion Program: Bangalore Patent Writing Tour, Bangalore, India
- JP Morgan Chase: Software Engineer Virtual Internship
